INDEX

*=Original Article; †=Abstract; §=Book Review.

A

ALMOND, R. L.: Epidural anæsthesia ..... †134
Amputation under ice anæsthesia ..... †48
Anæsthesia and analgesia, Recent advances in ..... §138
—— in psychosurgery *101
—— for the badly wounded ..... †48
—— for neurosurgery *17
—— death during *1
—— the art of ..... §175
—— maxillo-facial, at a base hospital *141
—— the building stones of *107
Anæsthetics on the screen 98
—— textbook of ..... §138
Anæsthetic risks, the need for an accurate understanding of *32
Arnold, B. M.: Nerve block anæsthesia in circumcision ..... †50
Association of Anæsthetists 130
—— —— of Great Britain and Ireland 47
Ayre, Philip: Anæsthesia for neurosurgery *17

B

BARACH, A. L.: Inhalation therapy ..... §135
Blood-pressure and its disorders ..... §99
Bryce, A. Graham and K. B. Pinson: Constant suction in thoracic surgery. Description of an anæsthetic apparatus *53

C

CARDEN, S.: Hazards in the use of closed circuit technique for trilene anæsthesia ..... †96
Chesterman, J. T.: Anæsthesia for lobectomy ..... †95
Circumcision, nerve block anæsthesia in ..... †50
Clendon, D. R. T. and F. Pygott: An analysis of the pulmonary complications occurring after 579 consecutive operations *62
Closed circuit technique for trilene anæsthesia, hazards in the use of †96
Confinement to bed for only 24 hours after operation ..... †51

Convulsions during general anæsthesia .....†50
Cranial nerve palsies with herpes, following general anæsthesia...†96

D

Death during anæsthesia *1
Dentistry, essentials of local anæsthesia in .....§175
Diploma in anæsthetics 61
Durrans, S. F.: Delayed recovery from trilene anæsthesia.....†49

E

Elam, John: The need for an accurate understanding of anæsthetic risks *32
Endotracheal tubes, Vinyl Portex 128
Epidural anæsthesia .....†134
Evans, D. S., K. Mendelssohn and and F. Barnett Mallinson: A new sphygmoscope *120

F

Flagg, P. J.: The art of anæsthesia .....§175

G

Gillespie, N. A.: Death during anæsthesia *1
Gould, R. Blair: Anæsthesia for the badly wounded.....†48

H

Hershey, S. G.: The building stones of anæsthesia *107
Hewer, C. Langton: Recent advances in anæsthesia and analgesia §138
Hewspear, D.: Trichlorethylene (trilene) anæsthesia in the presence of electric cautery *81
Humphrey, J. H., and Margaret McClelland: Cranial nerve palsies with herpes, following general anæsthesia .....†96
Hunter, D. A.: Vinyl Portex endotracheal tubes 128
—— —— Complication of trilene anæsthesia .....†95

I

Ice anæsthesia, amputation under .....†48
Inhalational therapy .....§135

J

Jaws, anæsthesia in fractures of the .....†97
Johnson, Emily E.: Experiences with Trichlorethylene (trilene) anæsthetics at an E.M.S. Hospital *71

L

Lee, J. A.: Anæsthesia in psychosurgery *101
Leithanser, D. J.: Confinement to bed for only 24 hours after operation .....†51
Lenowitz, H. and others: High dilution pentothal for sedation, narcosis and anæsthesia .....†133
Lobectomy, anæsthesia for .....†95
Local anæsthesia in dentistry, Essentials of .....§175
Lockett, John: Malaria and the anæsthetist *113
Lucas, H. G. B. and I. A. G. Dick: The orthopædic anæsthetist...†134

M

Mackenzie, J. Ross: Practical anæsthetics .....§137
Madan, K. E.: Developments in spinal anæsthesia.....*87
Malaria and the anæsthetist *113
Marvin, F. W.: A new vasaconstrictor.....†132
Maxillo-facial anæsthesia at a base hospital.....*141
Minnitt, R. J. and John Gillies: Textbook of anæsthetics .....§138
Minor surgery .....§52
Molesworth, H. W. L.: Regional anæsthesia .....§136
Moore, A. E. and D. W. Guthrie: Amputation under ice anæsthesia †48

N

Narco-analysis with nitrous oxide .....†133
Nerve block anæsthesia in circumcision .....†50
Neurosurgery, anæsthesia for *17
Nitrous oxide, narco-analysis with .....†133

O

Orth, O. S., and N. A. Gillespie: A further study of trichlorethylene anæsthesia *161
Orthopaedic anæsthetist, the .....†134

P

PENTOTHAL, high dilution, for sedation, narcosis and anæsthesia.....†133
Pinson, K. B. and A. Graham Bryce: Constant suction in thoracic surgery. Description of an anæsthetic apparatus *53
Practical anæsthetics .....†137
Psychosurgery, anæsthesia in *101
Pulmonary complications occurring after 579 consecutive operations, an analysis of the *62

R

RAY, B. S. and V. F. Marshall.....†50
Refrigeration anæsthesia .....†132
Regional analgesia .....§136
Richards, V.: Refrigeration anæsthesia .....†132
Roche, G. K. T.: Maxillo-facial anæsthesia at a base hospital.....*141
Rogerson, C. H.: Narco-analysis with nitrous oxide.....†133

S

SPHYGMOSCOPE, a new 120
Spinal anæsthesia, developments in *87

T

THORACIC surgery, constant suction in, description of an anæsthetic apparatus *53
Trilene anæsthesia, delayed recovery from .....†49
—— —— complications of .....†95
—— —— hazards in the use of closed circuit technique for.....†96
Trichlorethylene anæsthesia, a further study of *161
—— (trilene) anæsthetics at an E.M.S. Hospital, experiments with 500 .....*71
—— —— —— in the presence of electric cautery *81

V

VASOCONSTRICTOR, a new .....†132
